

Aspiring Full Stack Web Developer | B.Tech Computer Science (Final Year)

EDUCATION

B.Tech in Computer Science and Engineering — Government College of Engineering, 2022–2026 (Expected), CGPA: 8.05/10

Senior Secondary (Class XII), State Board — St. Xavier's Higher Secondary School, 2020–2022, CGPA: 88.6%

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Back-End: Python, Node.js (Basic), REST APIs, Flask

Databases: SQL, MySQL, MongoDB (Basic)

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify

Concepts: Responsive Web Design, API Integration, Version Control, Agile Basics

PROJECTS

E-Commerce Storefront Web Application | React, JavaScript, REST APIs, CSS3

- Built a fully responsive e-commerce front-end with product listing, cart, and checkout flow using React.js.
- Integrated a REST API to fetch product data dynamically and manage cart state using React Hooks.
- Implemented client-side routing with React Router and form validation for the checkout process.
- Deployed the application on Vercel with a CI-based deployment workflow.

Personal Finance Tracker | HTML, CSS, JavaScript, Flask, SQL

- Developed a full-stack expense tracking web app allowing users to log, categorize, and visualize expenses.
- Built REST API endpoints in Flask to handle CRUD operations, connected to a MySQL database.
- Designed a clean, mobile-responsive UI using HTML5 and CSS3 with vanilla JavaScript for interactivity.

College Event Management Portal | React, Node.js, MongoDB, REST APIs

- Created a web portal for students to register for college events and view schedules in real time.
- Designed RESTful APIs for event creation, registration, and admin approval workflows.
- Used Git for version control and collaborated with a team of 3 using GitHub for code reviews.

INTERNSHIP EXPERIENCE

Web Development Intern — Brightwave Technologies

December 2024 – February 2025 (Hybrid)

- Developed and maintained reusable React components for a client-facing internal dashboard.
- Consumed and integrated REST APIs to display real-time data, improving page load consistency.
- Fixed 20+ UI bugs and cross-browser compatibility issues reported during QA testing cycles.
- Participated in daily stand-ups and used Git/GitHub for version control in an Agile team environment.

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Coursera (2025)
- The Complete JavaScript Course — Udemy (2024)

- React - The Complete Guide — Udemy (2024)
- Responsive Web Design — freeCodeCamp (2023)

ACHIEVEMENTS

- Secured 2nd place in a 24-hour inter-college web development hackathon (2025).
- Maintained an open-source React component library on GitHub with 50+ stars.
